September 2019 – June 2023
Bachelors of Science in Computer Engineering

Sta. Peregrina High School
June 2012 – April 2019
STEM Strand Graduate – with Honors

WORK EXPERIENCE

AGHIMJUAN PH - Software Developer
June 2022–August 2022

I engaged in proactive collaboration with the development team, working collectively to design and build mobile and web applications utilizing Flutter and Dart within Visual Studio Code. Throughout the process, I adhered closely to UI designs while seeking guidance from my colleagues. Actively participating in code reviews and engaging in continuous learning initiatives, I aimed to improve my skills and make valuable contributions to the project.

SKILLS

- Proficient in JavaScript, HTML, and CSS, the fundamental technologies used for building interactive and dynamic websites and web applications.
- Familiarity with software testing techniques and frameworks to deliver high-quality, bug-free code.
- Excellent communication and collaboration abilities for effective teamwork with designers and backend developers.
- Experience in ensuring website responsiveness, cross-browser compatibility, and adherence to web standards to enhance user experience.
